Dear Corporate Sponsor,

Thank you for your interest in the University of Notre Dame chapter of the Society of Women Engineers. Our section provides members with many opportunities to develop professional skills, host outreach events, and build community through social events. While SWE depends heavily on student volunteers, we need your help in order to fully achieve our goals. This guide outlines the many ways your company may become involved through sponsorship with the University of Notre Dame SWE Collegiate Section.

The broad scope of our organization allows your company to have a large exposure to a diverse group of engineers. By sponsoring a SWE event, your company will benefit in the following ways:

- Host networking opportunities with both companies & students
- Promote opportunities and diversity for professional and collegiate women in engineering and technology
- Build lasting relationships between our corporate sponsors and society members
- Receive name recognition of financial support for the society and its programs

We look forward to speaking with you! Feel free to contact us with any questions at swe@nd.edu or visit our website at engineering.nd.edu/swe.

Best Regards,
